**Subject:** RE: Overtime?

Hi Jim,

We do have a small amount of overtime 20K total that we have already started to use in Boston on Saturdays. I am restricting the OT to the weekends since we need to track the case numbers analyzed using this funding separately and the chemists are generally more productive since they can work k uninterrupted.

Since the backlog is in Boston, the Amherst staff could have some of it but for Boston samples. It may not be the most efficient plan since the court cases will be in the eastern part of the state. Let me know if there is interest.

It is very unlikely that we will have a significant amount of money in the spring for OT like we had last year and in some previous years.

Julie

Hi Julie,

We are just wondering if they will be any overtime available like last year at this time.
